

Classroom Corner

Beginner B

Ms. Carolyn & Ms. Celeste

Last month flew by and we are excited to welcome the new month. We will have fun this month learning about fall, pumpkins, bats and witches! In October, the Beginners will be presented with new skills such as exploring new textures and identifying their own gender. As a class we will work on matching and naming shapes, colors and sizes. Please remember to label all belongings brought into the classroom. Be sure to check the lobby board for this month's events. We look forward to seeing everyone in costume this Halloween!

Intermediates

Ms. Daleana & Ms. Kristi

Have you seen leaves fall down yet? We have seen a couple! We will be spending a couple of weeks this month exploring the changes that happen in our environment during autumn. We have added a new component to our circle time sessions. The children have shown a lot of interest in the calendar, some have even noticed that all the numbers are in order. We are now enjoying singing a days of the week song and counting the days to find the current date. We look forward to all the fun events planned this month so be sure to mark your calendar with dates posted on the bulletin board in the front office.

Pre-K

Ms. Angie & Ms. Hayley

What a fantastic month we had. We welcomed new friends and learned about Johnny Appleseed! The students loved becoming bakers during Occupations week and making and selling pretend desserts. They also enjoyed dressing up and playing the role of other occupations, including a Doctor, Veterinarian, Teachers and more! This month the children will explore the world as pirates learn about Nocturnal Animals, Creepy Crawly Bugs, Animal Habitats and Pumpkins & Gourds. This month we are going to expand our vocabulary when using descriptive words to describe the characters in our Book of the Week. We will also be exploring different maps and learning fun new Harvest songs. Be sure to discuss a Fire Safety Plan at home in case of an emergency. We talked about Fire Safety last week. We look forward to the October events and invite everyone to attend our Trunk-or-Treat and Fall Festival on Thursday, October 29th!

Pre-K 2

Ms. Judy & Ms. Desiree

September was a wonderful month in the Pre-K2 class. We learned that letters make sounds and together they make words! We also learned about the life cycle of a butterfly and animals that live on the farm. The students had a great time during Apple week and when learning about Johnny Appleseed. We even made homemade applesauce! This week, we took a leap to learn about frogs and their life cycle. October is here and we plan to learn about fire safety and how to prevent fires. We look forward to our Fall Festival and door decorating fun for our classroom. We will continue to work on recognizing numbers 1-50, as well as writing the alphabet in both lower and uppercase form. We will be introducing the children to interpreting a simple bar graph, animal habitats and what to do to prepare for the winter season. We invite everyone to attend our Fall Festival and Trunk-or-Treat!
